

আপনি জানেন কি?

What is Thalassaemia?

Thalassaemia is a **genetic blood disorder**

Thalassaemia affects more than 7% of Bangladesh's population which means roughly 11.2 million Bangladeshi are thalassaemia carriers. It is estimated that about 7,483 children are born with the disorder every year with expected 3,74,154 living patients.

Please join us to find about prevention and
Management of **Thalassaemia** at our
